Class Descriptions for Home School Partnership 2023 2024

Seated Classes

ART

Art 101 - Laugh and Learn 1

Laugh and Learn 1 is designed for our younger learners. This class will complement content taught in other classes in the Partnership, but at an age appropriate level. We will explore music, art, movement and community building. Students will have fun as they learn fundamental drawing, painting, clay sculpting techniques and many creative crafts. In the music and movement portion of Laugh and Learn, students will combine music with physical movement. This will include singing, dancing and moving to the beat.

Grades K-3

Art 102 - Laugh and Learn 2

Laugh and Learn 2 is a continuation of Laugh and Learn 1. In this class students will take what they learned in Laugh and Learn 1 and extend their learning of music, art, movement and community building.

Grades K-3

Art 103 - Investigation Discovery 1

Learn more about the world around you and appreciate your own backyard. Students will learn about animals, culture and nature by using various artistic mediums, including visual art and technology. In addition, students will learn life skills and healthy living ideas with food preparation. It is designed to increase the student's knowledge of their environment and skills for everyday living while having fun!

Grades 6-12

Art 104 - Investigation Discovery 2

Investigation Discovery 2 is a continuation of Investigation Discovery 1. Students will take what they have learned in Investigation Discovery 1 and apply these new-found skills at a higher level.

Grades 6-12

Art 105 - 3D Art 1

This Art class will focus on the creation of art that is tactile, structural or 3 dimensional. It is designed to challenge students' creativity and introduce types of art that can be both traditionally artistic and functional. Examples of some of types of produces used include creation sets such as Legos, Lincoln Logs, Magformers and erector sets. Traditional art supplies that provide texture such as popsicle sticks, cotton balls, food, etc. will also be used.

Grades 3-8

Art 106 - 3D Art 2

3D Art 2 is a continuation of 3D Art 1 where students will further their new-found skills.

Grades 3-8

Art 107 - Art Studies 1

Art Studies 1 will focus on the study and creation of both classic and contemporary art and the importance of art on our culture; both past and present. Students will create age appropriate studies of classical artists and implement their techniques and common themes. We will also delve into the study and creation of storyboards and cartoons.

Grades 3-8

Art 108 - Art Studies 2

Art Studies 2 is a continuation of Art Studies 1 and will further the student's new-found skills.

Grades 3-8

Art 109 - Sewing 1

This is the perfect class for beginner sewers. You will learn the parts of the sewing machine, have a thorough introduction to using a sewing machine, learn all of the basics of sewing and then go on to create your own fun! Projects will vary from simple items to more complex items. Students will also learn how to read a pattern and cut out fabric.

Grades 3-8

Art 110 - Sewing 2

In Sewing 2 students will take basic skills and expand them by learning new sewing skills: zippers, button and button holes, corners and even creating their own patterns.

Grades 3-8

Art 111 - Creative Exploration 1

This class is designed for students who see art in everything. We will explore life from traditional art using paper and pens to the more modern forms of art; cameras, Legos, performance-based art and everything in between.

Grades 3-8

Art 112 - Creative Exploration 2

Creative Exploration 2 is a continuation of Creative Exploration 1 and will further the student's new-found skills.

Grades 3-8

ART 113 – Culture and Culinary 1

This course is for the beginner to learn basic food preparation skills. Skills we will cover in this class include food safety, proper knife skills, recipe reading, proper equipment use and more. We will learn about foods from different cultures; come prepared to try some new foods!

Grades 3-12

ART 114-Culture and Culinary 2

Culture and Culinary 2 is a continuation of Culture and Culinary 1 and will further the student's new-found skills.

Grades 3-12

Art 115 – Nature Inspiration 1

Learn more about the world around you and appreciate your own backyard. Students will learn about animals, culture, nature and arts in different places around the world using various artistic mediums; including visual art, PE and technology.

Grades 6-12

Art 116-Nature Inspiration 2

Nature Inspiration 2 is a continuation of Nature Inspiration 1 and will further the student's new-found skills.

Grades 6-12

Art 117– Life Style 1

This class will combine life skill lessons, health units, food preparation and technology.

It is designed to increase student knowledge and skills necessary for everyday living using fun strategy activities. The course emphasizes decision making and problem solving, communication, healthy life styles, nutrition and consumerism.

Grades 6-12

Art 118-Life Style 2

Life Style 2 is a continuation of Life Style 1 and will further the student’s new-found skills.

Grades 6-12

Physical Education

PE 101 - Active Discovery

This physical education class will improve flexibility, strength and coordination through exercise, aerobic fitness games and basic sports training. This course will integrate how your body works, health lessons, track, camp games, creative play and team challenges.

Grade 6-12

PE 102 – Active Discovery 2

Active Discovery 2 is a continuation of Active Discovery 1 and will further the student’s new-found skills.

Grade 6-12

PE 103 - Leisure Activities 1

This PE class will teach a variety of activities that students can use throughout their entire lifetime. It is designed to improve both physical and mental skills and coordination. Students will learn strategy, technique and life skills in a variety of low impact leisure activities, exercising both the brain and the body that they can use for their entire lifetime. Examples of games include age appropriate yard games, court games, board games and card games, golf, bowling, bag toss, pickleball, chess, cribbage and euchre.

Grades 3-12

PE 104 - Leisure Activities 2

Leisure Activities 2 is a continuation of Leisure Activities 1 and will further the student's new-found skills.

Grades 3-12

PE 105 - Team Sports 1

Team Sports 1 will teach a variety of team activities for students to learn and enjoy. It is designed to improve both physical and mental skills and coordination while incorporating a team aspect. Students will learn strategy, technique and life skills in a variety of medium impact team activities. Activities played include team handball, basketball, kickball and soccer.

Grades 3-12

PE 106 – Team Sports 2

Team Sports 2 is a continuation of Team Sports 1 and will further the student's new-found skills.

Grades 3-12

PE 107-Team Building 1

Team Building 1 will focus on team building through various subjects including art, music, health, coding and animation, fiber art, performing arts and more!

Grades 3-12

PE 108-Team Building 2

Team Building 2 is a continuation of Team Building 1 and will further the student's new-found skills.

Grades 3-12

Virtual Classes

PBS Learning Media

PBS Learning Media offers thousands of powerful learning activities to promote design thinking, collaboration and experimentation. Within PBS Learning Media students can choose from art, PE/health or music.

Grades K-12

DiscoveryK12

This online curriculum which offers Visual/Performing Arts, Physical Education, and Healthy Living. While DiscoveryK12 offers more than 10 subjects per grade you may only choose the electives.

Grades K-12

Incredible Art

IAD began as a showcase for elementary art students in Indiana and now includes a diverse range of subjects and topics of interest to art educators, general area teachers, students, parents, artists, and homeschoolers the world over. On this site you can find free art lessons, news, art resources, art careers, and art schools.

Grades K-12

The Kennedy Center

The John F. Kennedy Center for the Performing Arts, a vibrant cultural hub that connects thousands of artists with millions of people each year in person, online and in their home and communities has a library of free curriculum-based lessons designed for the classroom regardless of where that classroom may be. You can choose from 1,000's of lessons and digital learn resources. Once you are on the homepage, click on "Education" for the lessons.

Grades K-12

Go Noodle

Students will get active using interactive videos that engage the mind and body. This free site does require you to create a login to access materials. This virtual counts as a PE/health virtual.

Grades K-6

Daria Music

Meet a wonderful children's performer who has traveled the globe to share music that inspires, empowers and is just plain fun! On this website you can find lots of great ways to have fun with music, build your own music instruments, discover silly songs or design a multi-cultural project for your school or community group.

Grades K-6

SFSKids (San Francisco Symphony)

The San Francisco Symphony welcomes you to SFSKids.org! We love music and are committed to music education. This website, in conjunction with our live performances, provides a great way for people of all ages to hear, learn, have fun and play games with music.

Grades K-6

Music Theory

Explore Music Theory's free online content of music basics. This virtual covers the basics, rhythm and meter, scales and key signatures, intervals, chords, diatonic chords and more.

Grades K-12

Peter's Online Typing Course

By the time you finish this course, you will be able to confidently type all the letters, numbers and all the common symbols, with proper ten-finger touch typing techniques.

Grades 3-12

Typing.com

Typing.com is the world's most trusted free typing tutor! It's a perfect way to learn how to confidently type all of the letters, numbers and symbols. This program features fun and engaging exercises, interactive typing games and positive reinforcement.

Grades 3-12

Dance Mat Typing

www.dancemattypingguide.com is a collection of interactive typing lessons combined with fun cartoon cut scenes rewarding students for each lesson completed. Upon completion of all the typing lessons each student can expect to be comfortable using a QWERTY keyboard.

Grades 3-12

Khan Academy

Khan Academy offers practice exercises, instructional videos, and a personalized learning dashboard that empower learners to study at their own pace in and outside of the classroom. Students may only take computer programming, art, health or music.

Grades 5-12

Codecademy

Codecademy teaches people how to code. Their framework consists of practices and concepts that serve as a platform to create computer languages. Whether you're writing your first line of code or transforming to your next step, Codecademy will give you the technical skills you need to skill up and stand out!

Grades 5-12

CODE.org

Code.org is a nonprofit dedicated to expanding access to computer science in schools and increasing participation by women and underrepresented minorities. Our vision is that every student in every school has the opportunity to learn computer science, just like biology, chemistry or algebra. Code.org provides the leading curriculum for K-12 computer science in the largest school districts in the United States and Code.org also organizes the annual [Hour of Code](#) campaign which has engaged 10% of all students in the world. Code.org is supported by generous donors including Amazon, Facebook, Google, the Infosys Foundation, Microsoft, and [many more](#).

Grades 5-12

YouTube Approved PE Classes (Grades K-12)

Duolingo

Duolingo is a fun way to learn a new language. Duolingo has lessons that are designed to adapt to your learning style. Interested in learning a new language? There are many to choose from. Students can choose from Spanish or French.

Grades 5-12

Odysseyware Elective Descriptions

The following virtual classes are for Grades 6-12

Art History

Art History is designed to enable students to develop knowledge of the history and theory of art and the relationship between artist, artwork, and society. Students will research and critique periods, styles, and works of art from early civilizations through modern and contemporary art. Throughout the course, students may be asked to answer questions or to reflect on what they've read in their notes. The notes are not graded. Rather, they are a way for students to extend their thinking about the lesson content. Students may keep handwritten or typed notes.

French I

French 1, students begin to develop competence in four basic skill areas: listening, speaking, reading, and writing. While developing communicative competence in French, students gain and expand their knowledge of francophone countries and cultures. Emphasis is placed on learning the present tense, the near future and the past tense in French I through thematically designed units. Topics include home, school, family, holidays, and daily and leisure activities.

French II

French II is a foreign language course that builds on and reviews skills and concepts taught in French I through further exposure to communication, cultures, connections, comparisons, and communities. Course materials are designed to support students as they work to gain a basic proficiency in speaking, listening, reading, writing, and cultural competency. This course gives students practice using the mechanics of the French language, acquaints them with the cultural differences of francophone countries, and helps them gain a keen awareness of their own culture.

Health Quest

Health Quest is a health science elective course which introduces students to the concepts of what good health is, why good health is important, and what students should do in order to achieve good health.

Upon completion of the course, students should be able to do the following:

- Demonstrate an awareness of health as it applies to their own bodies, minds, and emotions.
- Demonstrate an awareness of health as it applies to their living environments.
- Identify the components of a healthy lifestyle and set reasonable goals to achieve a lifestyle of wellness.

Middle/High School HEALTH

Middle/High School Health is a health science elective course that introduces students to what good health is, why good health is important, and what students should do in order to achieve good health.

Upon completion of the course, students should be able to do the following:

- Demonstrate an awareness of health as it applies to their own bodies, minds, and emotions.
- Demonstrate an awareness of health as it applies to their living environments.
- Identify the components of a healthy lifestyle and set reasonable goals to achieve a lifestyle of wellness.
- Understand that incorporating sound health practices creates a lifestyle of moderation and wellness.
- Understand the responsibility of properly caring for their bodies.
- Describe health as it applies to broader society, the world, and their own responsibility to stimulate good health around them.

Music Appreciation

The goal of this course is to provide instruction in basic musical elements, trace the development and growth of classical music, and give students a strong foundation for a greater appreciation of music. Students will examine music in the world around them and discover how they experience music. They'll be introduced to the basic elements and sounds of music and instruments. Students will learn the names and backgrounds of several famous musical composers. Students will also learn how and where classical music began, how it developed over the centuries, and the ways in which music and culture affect each other. Lastly, students will examine the ways modern music has been influenced by classical music. This course also provides students with lessons in engaged listening. These special lessons allow students to and respond to music. A template for how to listen and respond is provided.

Music Theory

Music Theory requires no prior instrumental, vocal, or music theory study. Using the piano keyboard as a visual basis for comprehension, the course materials explore the nature of music, integrating these concepts:

Throughout the series of assignments, ear training exercises are interspersed with the bones of composition technique, building in students the ability not only to hear and appreciate music, but step-by-step, to create it in written form as well. This highly interactive course culminates in the students producing original compositions, which while based on standard notation, demonstrate facets of personal expression. As the students' ability to perform increases in the future, they will better understand music and therefore better demonstrate its intrinsic communication of emotion and ideas.

Personal and Family Living

This elective takes students on an interactive exploration of the challenges they may face as they transition into adulthood, including constructive conflict resolution, nutrition and health, building healthy families, financial responsibility, and long-term employment.

Physical Education

Physical Education is an elective that focuses on performance of individual and team sports, with explanations of proper technique, rules of the game, and preparation. Team sports introduced include soccer, basketball, football, baseball, and volleyball. An introduction to fitness, strength, endurance, and nutrition is also included. Students will have the opportunity to perform each sport on their own time, while keeping a log of activity. The goal is incorporation of activity into their daily lives and the gain of lifelong healthy fitness habits.

Physical Fitness

Physical Fitness is an elective designed to focus on the health benefits of regular physical activity and of a long-term exercise program. As students work through the course, they will learn about the many aspects of physical fitness, including basic nutrition, the importance of flexibility, cardiovascular health, muscle and strength training, and realistic goal setting. Along the way, students will be required to maintain and submit an activity log in order to measure progress in course exercises, as well as in personal fitness goals.

Psychology

Psychology is an introductory elective. Throughout the course students will examine influences on human actions and beliefs, factors influencing behavior and perception, and basic psychological theories. Students will develop and apply their understanding of psychology through lessons and projects that require interaction and observation of others.

Spanish I

Spanish I is an entry level foreign language course that explores the Spanish language through communication, culture, connections, comparisons, and communities.

Course materials are designed to support students as they work to gain a basic proficiency in speaking, listening, reading, and writing Spanish, and in cultural competency.

Spanish II

Spanish II is a foreign language course that builds upon skills and concepts taught in Spanish I, emphasizing communication, cultures, connections, comparisons, and communities.

Course materials are designed to support students as they work to gain a basic proficiency in speaking,

listening, reading, and writing Spanish, and in cultural competency.
